

## **Joint Leukaemia Research/ BSBMT Fellowship in Transplantation Sciences 2008**

We are pleased to announce the first Leukaemia Research / British Society of Bone Marrow Transplantation Fellowship in Transplantation Sciences. This joint award is specifically dedicated to the study of blood and bone marrow transplantation and its application to clinical benefit.

The aim is to encourage young haematologists/medical oncologists to become involved in this exciting and rapidly moving area. This high profile and competitive award will be for 3 years with the intention that candidates will obtain a PhD. At the end of the award, the successful candidate will be invited to present their work to the Annual Scientific Meeting of the BSBMT.

Applications should be submitted following the standard procedure to Leukaemia Research by 7<sup>th</sup> March 2008 clearly identified as the LR/BSBMT fellowship and should include a **named candidate** suitable for the position.

Informal enquiries can be made by telephone to Dr David Grant, LR Scientific Director on 0207 405 0101 or e-mail: [scientific@lrf.org.uk](mailto:scientific@lrf.org.uk)
