

Manchester 2009 Draft Scientific Programme

Thursday 10th September	1030-1230	Red Cell SiG Session I Stem Cell Immunotherapy SiG tbc HoT SiG Session I Apheresis SiG		Chairs: Dr Kay Ridgwell & Dr Lesley Bruce Chair: Dr M Guttridge Chair: Dr Jane Keidan Chair: Dr Ellen McSweeney Chair: Dr H Qureshi	
	1230-1330	Fetal & Neonatal SiG tbc LUNCH & EXHIBITION Red Cell SiG Session II Blood Bank Technology SiG Components SiG tbc Transfusion Microbiology SiG HoT SiG Session II		Chairs: Dr Kay Ridgwell & Dr Lesley Bruce Chair: Ms Fiona Stribling Dr Stephen Thomas Dr Carl McDonald Chair: Dr Jane Keidan	
	1530-1600	TEA & EXHIBITION			
	1600-1745	PLENARY I: Transfusion Epidemiology How much blood do we need? Donor recruitment for an adequate blood supply Transfusion service planning in developing countries	Prof E Seifried, Germany Dr Moira Carter, SNBTS, Edinburgh Ms Diane De Coning, S Africa		
	1745-2000	OFFICIAL OPENING OF THE COMMERCIAL EXHIBITION			
	0815-0850	Education Session: Anaemia, causes, investigation and treatments	Dr Sue Knowles Epsom St Helier		
	0900-1030	PLENARY II: Trouble with ABO ABO and solid organ transplants ABO and bone marrow transplants ABO and malaria	Prof Lori West, Edmonton, Canada Dr Derwood Pamphilon NHSBT, Bristol Dr Christine Cserti-Gazdewich, Toronto, Canada		
	1030-1100	COFFEE & EXHIBITION			
	1100-1230	Stem Cells Cord Blood banking and transplantation "New Blood: Are human embryonic stem cell derived erythrocytes a viable alternative for transfusion?" Low intensity marrow transplantation	Dr Rachel Hough, UCLH London Dr Jo Mountford, Glasgow University Prof Charles Craddock, Birmingham		
	Friday 11th September	1230-1400	LUNCH, EXHIBITION & POSTER VIEWING		
1230-1300		AGM			
1400-1530		PLENARY III: Kenneth Goldsmith Award, International Woman in Transfusion Award			
1530-1600		TEA & EXHIBITION			
1600-1730		Young Scientists Paediatric and neonatal transfusion Platelets: Additives, inactivation and death Bacterial infection and the use of pathogen detection systems Additive solutions and platelet function Pathogen reduction or function reduction?		Chair: Dr Helen New	
1730-1830		FORMAL POSTER VIEWING (to be attended by all authors)			
1830-1900		FUN RUN			
2000-1230		SOCIAL EVENT: Quiz, supper & band			
0815-0850		Education Session: Immunology for dummies	Dr Belinda Kumpel NHSBT Bristol		
0900-1030		Orals 1 Orals 2 Orals 3			
Saturday 12th September	1030-1100	COFFEE & EXHIBITION			
	1100-1200	PLENARY IV: James Blundell Award			
	1200-1330	LUNCH, EXHIBITION & POSTER VIEWING			
	1245-1315	Research Seminar; Stimulating, funding & managing transfusion research in centres and hospitals			
	1245-1315	CPD Seminar	Mr John Eggington NHSBT Liverpool		
	1330-1500	PLENARY V: Animals, Casualty and Military: Dealing with massive blood loss Animal models of massive blood loss Military experience and management of massive blood loss Civilian haemorrhage	Dr D Fries, Austria tbc Prof K Brohi, London and Bart's Hospital		
	1500-1530	TEA			
	1530-1700	Serological case studies Debate: This house believes that specialist components are no longer necessary For: Dr Derwood Pamphilon Against: tbc Dr Sheila MacLennan	Clare Milkins and Expert Panel		
	1930-0100	GALA DINNER & AWARDS CEREMONY
